Czech Mining Technology Association

Dear business partners,
you have in your hands a publication that presents Czech companies and their innovations at an important professional event.

Participation in such a fair is not only an opportunity for presentation, but also proof that Czech companies have a strong position on the international scene.

The Ministry of Industry and Trade actively supports Czech companies in their efforts to develop products and services with high added value, which

represent the basic pillar of the prosperity of any economy. Participation in this fair provides us with a unique opportunity to establish strategic partnerships and technological cooperation. We are looking for partners and subcontractors with whom we can jointly develop innovative projects that will bring us mutually beneficial cooperation.

I would like to wish you many successes and inspiring meetings at this exceptional event, which is an opportunity to grow and collaborate in the ever-evolving business world.

doc. Ing. Karel Havlíček, Ph.D., MBA

Minister of Industry and Trade of the Czech Republic

ENELEX spol. s r.o.

ENELEX is a Czech company established in 1991, focused on advanced technologies for coal and biomass quality control.

We develop and manufacture:

- Online analyzers for continuous measurement of ash, moisture, and calorific value
- Automatic sampling systems for bulk materials from belt conveyors, trucks, and railway wagons
- Thermal imaging systems for early fire detection and prevention in fuel handling areas
- Integrated coal and biomass quality management systems (CQMS) optimizing fuel quality blending and combustion efficiency

All ENELEX technologies are designed for industrial reliability, automation, and full compliance with international quality standards. With more than 30 years of experience and installations worldwide, ENELEX delivers proven solutions that enhance safety, efficiency, and profitability in coal mining, fuel processing, and combustion in power plants.

FERRIT s.r.o.

Ferrit Pvt. Ltd. has a tradition of more than 30 years of production the equipment for underground mining operations, our systems enjoy a very good reputation in more than 30 countries including India, the profile of our company see at our website and also video : www.ferrit.cz/en

a) Trackless

- Wheeled loaders with the capacity 5, 10, 14 and 17 tons (hydrogen powered version of LHD 14 tons)
- Wheeled dumpers with the capacity of 30 and 45 tons
- Universal vehicles with different attachments (cassettes) for special defined mining works
- Utility vehicles (4x4), these vehicles are equipped with a lot of special control and measuring systems

b) Suspended Monorail

- diesel / battery accumulator locomotives
- diesel manipulators

c) Ground Rail

- diesel / battery accumulator locomotives
- electric trolley locomotives
- mobile workshops, means of transport for carrying the material or persons etc.

FERRIT s.r.o.

Na Zbytkách 41, 739 01 Staré Město, Czech Republic

E-mail: drahos@ferrit.cz

www.ferrit.cz

d) Tracked

- Multipurpose machines on crawler tracks with different attachments for special mining works including roof drilling

Hansen Electric, spol. s r.o.

The company Hansen Electric is advanced company with modern technology and high KNOW-HOW to provide development, construction, production, installation and maintenance of electrical equipment particularly for explosion-proof environment. A large production range allows the supply of complete electrical solution for mining technology.

The main products of the company are:

- Explosion-proof Transformer sets with or without load centers,
- Explosion-proof Switchboards and Load centers,
- Explosion-proof Frequency converters,
- Explosion-proof Circuit breakers,
- Intrinsically safe control systems,
- Vacuum contactors
- LED Lights
- Electric motors, Generators for power plants

Besides the production activity of our company, it also has servicing and overhauling of electromotors, generators and transformers in its program.

INCO engineering s.r.o.

Manufacturer and supplier of a new generation of hoisting machines – winders and vertical transport equipment for deep mines

A progressive approach, the highest level of safety, reliability and economic efficiency are the key factors of our success. INCO engineering s.r.o. - is a private company, founded in 1994 in the Czech Republic. The history and traditions of the company date back to the end of the 19th century. INCO products are characterized by Czech precision and quality. INCO belongs to the world elite in the field of suppliers of equipment for vertical transport for deep hoists. We specialize in both turnkey deliveries and individual deliveries. We put a lot of effort to present our customers with modern, safe and reliable equipment.

Equipment for vertical transport in deep mines /winders/:

- Friction pulley Hoisting Machines
- Drum and doubledrum Hoist Machines
- Mobile lifting machines, for shaft sinking
- Accessories
 - Mine shaft signaling systems, skips, cages, buckets, skip loading and unloading stations, wagon exchange, Suspension equipment for hoisting/tailling ropes, pulleys,sheave wheel, Equipment for replacement of ropes and transport vessels
 - Transformers, HV distribution stations

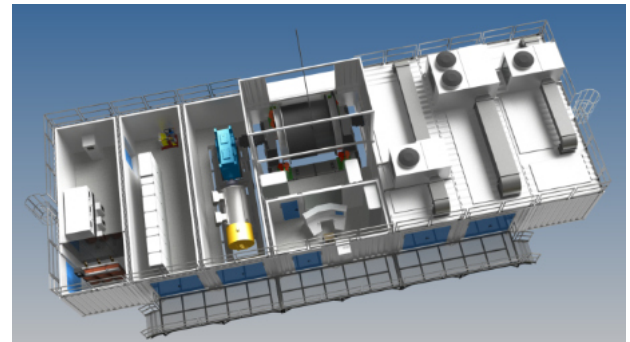

INCO engineering, s.r.o.
Sokolovska131/86,18600 Praha, Czech Republic

Recent projects:

- 2025, March, HUTTI GOLD MINES LLC , India skip 4K3015,cage 2B5816
- (2023 - 2025) Kopper Technology Aktobe-RMK LLP, Kazakhstan, two-drum cage PM 2B5024
- (2018 -2022) EVRAZ ZSMK JSC, Novokuznetsk, RF/two large PMs in tower, 4K5016,8K5024 dc-drive.
- (2019-2021) OAO PPGHO Rosatom (RF) / three double-drum cage hoisting machines 2B5024 dcdc
- (2017-2018) OAO SHSU, Uchaly, / autonomous tunneling PM with increased capacity and speed

MAPE CZ, s.r.o.

Our company is one of the most important companies operating in the field of sludge pump production, not only in the Czech Republic. MAPE CZ s.r.o. is exclusively engaged in the design and manufacture of MAPE industrial pumps, continuing a tradition of pump manufacturing that dates back to the early 1960s, when the development of uranium ore mining created a need for a simple and reliable way to transport the ore from the mines in suspension in a highly concentrated sulfuric acid solution. In addition to the serial production of pumps, the company is also involved in the development and manufacture of mining equipment.

MAPE CZ s.r.o. offers comprehensive services in the following areas:

- design of pumping system solutions
- supply of sludge pumps
- supply of spare parts for sludge pumps
- supply of products for sludge pump servicing
- warranty and post-warranty pump servicing
- supply of piping systems and shut-off elements
- supply of mining equipment

ZAM - SERVIS s.r.o.

ZAM -SERVIS is specialized in development, service, and production and supplying of electrical, security, measuring, adjustment and analyzing equipment for the underground and surface mining, chemical and power plant industry:

- Products for explosive environments
- Gas monitoring and personal /machinery/ material tracking systems
- Telephone wire / wireless communication systems and camera systems
- Automation of technological processes (hoisting device, conveyor belts etc.)
- Industrial gas detectors
- The other important activities are engineering and consultancy.

ŽDB DRÁTOVNA a.s.

ŽDB DRÁTOVNA a.s., member of the group TŘINECKÉ ŽELEZÁRNY – MORAVIA STEEL, situated in Central Europe is a company with 140 years of tradition. We produce engineering and metallurgical products like steel drawn high and low carbon wire, steel springs, metal cloths and steel wire ropes.

The products are manufactured in one production chain starting with steel production, wire rod production, high carbon drawn wire production and finishing with steel wire ropes within one group of companies.

The main groups of ropes are as follows:

- **SPECIAL CRANE ROPES**

(tower cranes, mobile cranes, dockside cranes, lattice boom cranes, overhead gantry ropes, ladle cranes, container cranes, unloader cranes)

- **FISHING ROPES**

(trawl warps, purse seine, beam ropes, lower and upper bridles)

- **MINING ROPES**

(hoist ropes, balance ropes, ropes for excavators and draglines)

- **ROPES FOR CABLEWAYS AND SKILIFTS**

(chair lift ropes, skilift ropes)

- **GENERAL PURPOSE ROPES**

(general handling ropes, anchor ropes, towing ropes, ground wires, drilling ropes)
